

ASSIGNMENT OF LAB 5

(PREPARE ANSWERS IN PPT)

LAB 5 (HISTOGRAM USING MATLAB)

- 1) Write a program to find histogram of image without using function. Compare with imhist function. Display original image, Histogram without using function and Histogram with function.
- 2) Write a program to display histogram of original image and equalized image. Display all images.

LAB 5 (HISTOGRAM USING MATLAB)

- 1) Write a program to display original image, referenced image and histogram matched image. Use following images as original and reference image.
 - ✗ `A = imread('concordaerial.png');`
 - ✗ `Ref = imread('concordorthophoto.png');`
